

PHTG Expert Days «Making@School»

29th September – 1st October 2025

PHTG MakerSpace
Kreuzlingen | Switzerland

Contact:

Alex Bürgisser and Sabrina Strässle
(schule.digitalitaet@phtg.ch)

For registration and administrative information:

Gerit Jaritz (gerit.jaritz@phtg.ch)

Deadline for registration: 30th April 2025

Join us for 2 days of tinkering, school visits and lively exchanges with an international group!

Welcome to PHTG's Makerspace !

Our aim?

To invite a group of colleagues with an interest and expertise in the field of Making/Tinkering in order to create an open space for collaboration and knowledge-sharing on questions central to **Maker Education**:

- How can Making be effectively implemented in schools and teacher education?
- In what ways can Making be linked to subject-specific competencies?
- What does Making look like in a classroom with students?
- How can we prepare pre-service teachers to foster a culture of Making?

What to expect

- Hands-on exploration and workshops
- Interactive sessions with PHTG's "Makerspace-Team" and international colleagues who share their insights and approaches
- School visits to see real-world implementations of **Making**
- Discussions which connect Making with broader educational competencies and teaching methods

**Monday,
September 29th, 2025**

**Tuesday,
September 30th, 2025**

**Wednesday,
October 1st, 2025**
